

HEALTH CONSUMERS' COUNCIL (WA) INC

Position Paper

Community Based Services

Graylands Hospital

The Health Consumers' Council is strongly committed to community based services that are safe, accessible, responsive and flexible for mental health consumers.

The Council believes that over the mid to long term the eventual closure of Graylands Hospital as a stand alone psychiatric facility isolated from the mainstream health system is welcome and inevitable.

In the short term the Council welcomes the move of Graylands Hospital to a rehabilitation model of treatment and care.
