

# Have your say in health service delivery at Fiona Stanley Hospital

Fiona Stanley Hospital's Consumer Advisory Council (CAC) is recruiting new members to help represent the patient voice. The council provides advocacy for the planning, delivery and evaluation of health care services across the south metropolitan area.

CAC Chair Rasa Subramaniam joined the council to improve the patient experience. "During my time on the CAC, I have been able to make a difference and truly help create a patient sensitive service," Rasa said.

Consumers and carers are needed to share their experience, knowledge and technical capabilities, and to attend monthly meetings at Fiona Stanley Hospital.

By providing support and feedback to the hospital at all levels, CAC members have the opportunity to raise awareness of consumer and carer rights, and enable communication between patients, carers and the hospital.

A consumer is a potential, current or previous user of Fiona Stanley Hospital, and CAC membership aims to reflect the diversity of the local community.
